

Alaska Veterans

Important Information!

If you received a Permanent Fund Dividend in 2008 and your VA benefits were reduced because of this payment, the State of Alaska may be able to replace part of your lost benefits.

The 2008 Permanent Fund Dividend included a one-time \$1,200 Resource Rebate payment. The state law that authorized the Resource Rebate payment provided a hold harmless provision for certain veterans' benefits. This allows the State to replace VA benefits that are reduced because of the \$1,200 Resource Rebate portion of the 2008 Permanent Fund Dividend. The hold harmless payment will not affect your VA benefits.

To see if you might be eligible for an additional payment to replace the reduction to your VA benefits, please contact the Alaska Division of Public Assistance at:

Division of Public Assistance
